

NEW GRAPES IN LOCAL MARKETS

California Pears and Virginia Cantaloupes Also on Sale About the City.

Among the new arrivals on the local market this week are Delaware grapes and California Bartlett pears. Spanish sweet onions also made their appearance and are bringing from 8 to 10 cents each. Prices on many fruits and vegetables show a slight drop over last week, but are expected to take a jump in a few days owing to the recent floods and storms in the South. The Carolina peach crop is entirely cut off and peaches accordingly show a raise in prices. Sweet potatoes are scarce, and the few that arrive are soon sold. Cucumbers show a big reduction and are very plentiful at from 12 to 20 cents a dozen. Sweet air cantaloupes from Virginia also arrived during the week. Prices quoted yesterday were:

EGGS.	
Best creamery, lb., 40.	Prices, lb., 35.
POULTRY.	
Poultry, lb., 35.	Roasters, lb., 35.
Springers, lb., 35.	Turkeys, lb., 35.

Clams, qt., 20c.	Oysters, qt., 20c.

SUTHERLAND DEMANDS SUFFRAGE AMENDMENT

Says Change of Constitution on Behalf of Women Voters Would Not Be Violation of State's Rights.

Senator Sutherland, of Utah, yesterday argued, in a speech in the Senate, that the question of woman suffrage is a matter for the Federal government and that there would be no invasion of States' rights in the adoption by Congress of the resolution which proposes that a Federal amendment be submitted to the States. "The demand for the submission of the proposed amendment," said Senator Sutherland, "is not only insistent but widespread. In the face of a demand of such proportions, the objections to the amendment should be of the most cogent and compelling force to justify Congress in refusing affirmative action. I submit that the reasons are persuasive in favor of affirmative action."

He admitted that the present Constitution leaves to the States the right to fix the qualifications of voters. "But it will not do," he added, "to say that the Federal government is not concerned in the character of the qualifications to be prescribed."

NEW PLACE FOR HEKIMIAN.

Oriental Rug Dealer Now at 1512 H Street Northwest. Mr. Hekimian, the oriental rug dealer, who for several years has been located in the Woodward Building, has moved to his new location, 1512 H Street Northwest. Hekimian established his business in Washington in 1901 and since then has seen it steadily prosper until he has found it necessary to acquire more commodious quarters.

In his new store, which has been completely remodelled in accordance with his ideas, Mr. Hekimian has gathered together a stock of \$50,000 worth of ancient and modern oriental rugs.

Counting "Baby Day" Fund.

The officers of the Washington Loan and Trust Company who have charge of the counting of the "Baby Fan Day" receipts, report they have the task started. It will be another day or two before the final count is made.

Want Overhead Wires Down.

The District Commissioners sent a bill to Congress yesterday, asking for the right to enforce the removal of overhead wires in the city. The particular wires mentioned in the bill are on Water street between Seventh and Tenth streets.

Swollen Feet and Ankles Often Mean Kidney Trouble!

Swollen ankles and feet are often due to a dropsical condition, brought about by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists, or under the eyes in bag-like formations.

"It is just as necessary to keep the kidneys acting properly as to keep the bowels active," says an eminent physician. When one is sick the first thing to be done is to thoroughly test the kidney excretions.

The very best possible way to take care of yourself is to take a little hot water and "Anuric" before meals. In this way it is readily dissolved, picked up by the blood and finally reaches the kidneys, where it has a tonic effect in rebuilding these organs.

"Anuric" has been thoroughly tested in Dr. Pierce's laboratory as well as in his Invalids' Hotel, at Buffalo, N. Y. Any one can prove that "Anuric" is many times more potent than lithia, which settles in the feet, ankles and wrists, or under the eyes in bag-like formations.

A different person daily offers his or her words of praise of "Anuric." Now Mr. S. P. HENSLEY, says:

"I recommend 'Anuric' very highly. I suffered for the last three years with catarrh of the bladder, having tried every remedy I heard of but without relief. Finally, I saw Dr. Pierce's advertisement of 'Anuric' in the paper, and, like a drowning man grasping at a straw, I thought I would try it also, which I did with great success, as is relieved me almost immediately (before I had taken all of the trial package.) I can say to all who suffer from uric acid troubles or any disease of the kidneys, try this remedy and suffer no longer."

"I have great faith in Dr. Pierce's medicine."

for a full treatment. Everyone can quickly associate Dr. Pierce's great herbal restorative tonic, "Golden Medical Discovery," and his "Favorite Prescription," so well known as an invigorator for womanly life.

CALL OF BATTLE LUST FELT BY "OLD RODNEY"

Veteran Cavalry Horse Gazes Longingly as Militia Batteries Rattle Over Parade Ground.

Old Rodney, U. S. A., retired, tried to return to active duty recently when he heard the rattle of artillery wheels as the District batteries paraded on the Fort Myer drill field. He heard the call of the big guns, and wanted to feel a harness on his back again, to gallop in the swirling dust, and to stand steady as the guns roared.

For Old Rodney is the veteran horse of the Third Field Artillery. He is now on the pension list and is taken care of by the quartermaster's department of Fort Myer. The men of the regular artillery have arranged to care for him in comfort for the rest of his life, and he is the only retired horse housed at an army post with the sanction of the government.

When the District militia, including batteries A and B, had their review Saturday the call of the guns was too strong for Rodney. He ambled down to the polo field and looked longingly at the troops. Then he slowly ambled back to his quarters.

WEEK-END TRIPS FINE.

Fishing and Crabbing Splendid at Colonial Beach.

Delightful week-ends can be spent at Colonial Beach, the summer playground of the people of Washington, at small expense, and the week-end will return home Sunday night rested and ready to take up work again Monday morning. Bathing at Washington's Atlantic City is a pleasure, and the fishing, crabbing and other amusements, make such a thing as dull time unknown.

The hotels and boarding houses are ready to meet the demands of any purse. The steamer St. Johns leaves here for the Beach Saturdays at 8:30 p. m., and on other days, except Monday, at 9 a. m. Those who visit the Beach Sunday, and cannot stay over, can return Sunday evening, the steamer leaving there at 6 p. m. and reaching home about 10:30 p. m. The usual evening trip of the St. Johns will be made Monday, the steamer leaving here at 7 p. m., and returning about 11 p. m.

Notes of Camp Ordway

Capt. D. Spencer Bliss is very busy these days. In addition to entering all the recruits that report at Camp Ordway, he is taking an inventory of the equipment of the batteries of field artillery.

Telling which is which, and what name each piece of equipment goes by is quite a job, he says. Of course he was able to check up the three-inch cannons that each battery has, but when it came to spare parts, with names that sounded like some of the Mexican towns the boys hope to take, the only thing he was able to do was to prevent the artillerymen showing the same article twice, each time under a different name.

There are mighty few horses at Camp Ordway. The cavalry at Fort Myer turn over their horses every few days to the militia cavalrymen for practice, and the artillery has about thirty animals, most of which have seen better days. The infantry regiment has not a horse, and when it goes into action it must have thirty-six for enlisted men and fourteen for officers. Ninety-two draft mules are needed, along with seventeen pack mules.

The mounted headquarters' orderlies are not getting much practice in riding, but they are learning how to chop wood.

"Top" Sergeant C. H. MacDonald says that there is a chance for five good "mule skinner" in the supply company. They get better money than a mere private, as rated as mechanics, they receive \$2 a month, as much as an infantry corporal.

Among the visitors to inspect the Y. M. C. A. tent recently was a party from the Washington Y. M. C. A., made up of Dr. Everett Ellison, A. L. Fowler, Jr., A. H. Langenberg, and N. W. Ellison.

The Y. M. C. A. tent force, in addition to handling mail, has agreed to take care of the many telephone calls that come in for militiamen. The telephone number of the tent is Rosslyn 72.

How many parts there are to a machine gun and how to put them together is being taught the machine gun company men at school each afternoon. Lieuts. Perry Baldwin and Frank B. Schlosser are in charge of the class.

There is a historic pair of spiral leggings in the machine gun company. The men take turns in wearing those that First Sgt. Robert L. Hainey used when in the English army before Ypres and in the Dardanelles.

John Woolfing, cook, is daily winning the praises of the men of the machine gun and supply company.

Another cook is not getting complaints except those that always come in from chronic kickers. He is Ira Sears, formerly chief cook for Childs' at Atlantic City, now with Company M.

Private LeRoy Chaney, of Company M, went home to see his parents for a few days when his enlistment expired. But he was soon back to rejoin the colors.

The fly traps that have been made for Company M are working so well that a special detail has been created to clean them frequently.

E. T. Stephens, captain of the camp base ball team, wants a game for Saturday afternoon or Sunday.

Sergeant Ira Brashears, of Company H, has received a postal card from his brother, Paul, who is in the Signal Corps, stationed at Warren, Ariz. According to the message, the only disagreeable thing about the climate is the large number of horned toads and other harmless reptiles.

One of the infantry men has a red artillery hat cord. When this news reaches the artillery camp, it is expected that there will be raids on the infantry camp to recover the insignia.

An old land turtle grows fat in kitchen of the Headquarters Company eating choice flies. This pet has been approved by the medical authorities at the camp.

The headquarters' Company has a new bulletin board. Matthew Welch is the carpenter and decorator. He is going to make it the finest of any in camp.

First Class Private Albert Weisenborn has been made mess sergeant of the Headquarters Company.

SUBMITS NEW REPORT ON "PEPCO" PROPERTY

The hearing of the values of the property of the Potomac Electric Power Company by the Public Utilities Commission was resumed yesterday afternoon, with Andrew Sangster, expert accountant, on the stand.

The report of Mr. Sangster estimated the total property of the company at \$11,529,136, after an examination of the books of the company. Transactions between the Washington power plant and

the United States Electric Power Company, of New York, features the part of the Sangster report given yesterday.

Beside previous objections to the report of the accountant, the representatives of the company yesterday stated that Mr. Sangster, being an accountant only, could not see these values with the eye of an engineer, and that his report had nothing to show that he has had "experience in the technical or practical sides of operation, construction, and financing of public utility properties." For these reasons the company moved that his report be eliminated from the record. The commission acted upon the motion

late yesterday afternoon and its decision will be made known today.

PINCHOT BROTHERS TO EACH GET A MILLION

New York, July 20.—Columbia University loses a bequest estimated at from \$4,000,000 to \$5,000,000 as residuary legatees under the will of the late Amos F. Enos as a result of a verdict of the jury before Surrogate Cobalan, yesterday, setting aside the will.

This decision establishes the validity

of a new will made in January, 1914, which did not mention the University, but gave the residuary estate to a brother, Dr. Henry Clay Enos, and a sister, Mrs. Mary E. Pinchot, both of whom died before their brother. Thus Gifford and Amos Pinchot are heirs.

The General Society of Mechanics and Tradesmen, which received \$1,800,000 under the will rejected by the jury, gets \$1,000,000 under the document which will now be offered for probate.

The original dome of the capitol in Washington was made of wood, covered with copper.
